City Clerk City of Mountain Lake 930 Third Avenue Mountain Lake, MN 56159

RE: City of Mountain Lake - Adam Sayles

Dear Clerk:

This is a follow up of my letter directed to you of May 23, 2017. My client informs me that the facts recited in the previous correspondence was partially incorrect. We understand from a source at the scene that a grass truck from the Fire Department did arrive at the residence. No firemen exited the vehicle. The vehicle was told to return and it did so. I apologize for that error. Given that the so-called grass truck did arrive and even though no firemen exited the scene, Adam is willing to raise his offer to resolve this matter to \$150.00.

Please confirm that is acceptable and payment will be made promptly.

My client is soon going to be leaving for an extended medical mission to Africa. We would, therefore, appreciate the City evaluating this claim promptly and reply.

As always, if you have any questions, comments or wish to discuss, please do not hesitate to contact me.

Very truly yours

Steven R. Sunde

June 21, 2017

To: Wendy Meyer & Mountain Lake City Council Members

Re: City of Mountain Lake - Annual Check-in

Dear Wendy & Council Members,

Thank you all for making time for me tonight. I'm here to provide our annual check in to the Council.

Our 2017 City-Wide Cleanup has been completed, the campground and city park dumpsters have re-started service, and Pow Wow is also in the rearview mirror. We hope you have found these services to be successful and seamless for you. Our goal is for City Hall & Council Members to handle as few phone calls as possible regarding garbage service.

Before we get started, are there any immediate issues or questions from the Council?

As you likely know, the City of Mountain Lake was one of our very first municipal commitments back in 2010. Since then, we've transitioned into our second contract, provided several years of city-wide cleanups, and also re-worked services to eliminate bags and implement an every-other-week container.

We are very grateful to the City for selecting us to provide these services, and we hope you've found the relationship to be a positive one.

Back in April, the existing contract called for a price adjustment. However, the contract also calls for advance notice to the Council, which I was unable to provide for a series of reasons. As such, we did not implement an increase. I'm here tonight to notify you of the upcoming increase of 2.5%.

The existing & new pre-tax standard (paper bill, non-senior citizen) monthly prices are:

35 GALLON ALT WK: \$9.35 ----- NEW PRICE = \$9.58 35 GALLON 1X/WK: \$12.54 ---- NEW PRICE = \$12.85 65 GALLON 1X/WK: \$14.73 ---- NEW PRICE = \$15.10 95 GALLON 1X/WK: \$16.91 ---- NEW PRICE = \$17.33

Remember, autopay customers save .50/month. Senior Citizens save \$1/month.

Conclusion

We want to thank you again for your continued patronage, and for supporting local business. We are very proud to be part of this community, and look forward to many more years serving you.

Sincerely,

Mike Johnson, General Manager Hometown Sanitation Services 1041 3rd Avenue – Windom TO:

Council

FROM:

Wendy

RE:

Public Works Capital Purchases, Agenda Item 7d

Included with this memo is state bid information from the MN DOT's website – http://www.dot.state.mn.us/maintenance/fleet.html

Click on 'visit list of equipment contracts'

On pages 1 and 2 following this memo there is a list of the make and model of motorgraders available through the state bid.

The two models that are the size the City would buy are noted; more information can be found on the John Deere on pages 3 -6 and on the Caterpillar on pages 7 -16.

On pages 17-19 there is information about the payloader state bid and the model the city purchased in 2016.

When I called Jesse Miller, RDO Equipment, to discuss leasing the company offered to send a representative to a council meeting. Brian Philges, RDO Mankato, will be attending the Wed. June 21 council meeting.

Levels everything but the playing field.

The 672G/GP Motor Grader's tall mainframe lets this highly productive grader shoulder larger loads and navigate more easily over obstacles. Provides plenty of clearance for a mid-mount scarifier, and simplifies blade setup and operation, too. You won't find an easier-running grader, either. Our exclusive Event-Based Shifting (EBS) transmission delivers smooth-as-silk gear and direction changes, for exceptional control and grading precision without extra effort. There's nothing else like it.

Support

Powerful. And Proven.

Built on the highly reliable platform of their predecessors, these models are loaded with even more customer-inspired productivity-and uptime-increasing features. John Deere PowerTech™ EPT Final Tier 4 (FT4)/EU Stage IV diesels provide generous displacement, power, and lugging ability. Daily checks and maintenance access are even easier. And all new K-Series-II Loaders come with a standard five-speed transmission, a new adaptive clutch cutoff, and new axles with brake retractors that will improve productivity while providing up to 10-percent fuel savings compared to previous K-Series models.

kload than your get, keep on project ohn Deere

ss is unique. Just That's why you need that are as flexible

ial comes in. We have is that keep you rolling new John Deere. If e, a lease could be just

CONSIDER THE BUSINESS-BUILDING BENEFITS OF A LEASE.

A lease from John Deere Financial is a low-cost, low-risk alternative to buying your equipment outright or taking on an installment loan.

Want to lower your monthly equipment costs? Have a specialized, short-term job you need equipment for? Looking for a way to run with the latest capabilities? We'll help you find lease options that make sense for you, including leases with \$1.00 buyouts or balloon payments at the end of the term to lower your payments. Plus, all leases can be structured with terms from 12 to 60 months.

- Free up cash Low initial cash outlay compared to an outright purchase or installment loan.
- Make lower monthly payments Low payments to match your cash flow requirements and budgetary needs.
- Get the latest technology At the end of your lease, you can return your equipment and lease a new model to
 put new technology to work for you to continually take advantage of more capable and efficient machinery.
- Choose your payments Convenient payment schedules give you the flexibility to choose from monthly, quarterly, semi-annual, or annual payments. Skip payments are also available.
- Schedule equipment replacement With its defined term, leasing helps you schedule equipment replacement.
- Adjust your fleet easily Master lease schedule lets you lease additional equipment under the master lease without needing to negotiate a whole new contract (only the equipment schedule needs review).
- Get going quickly Fast approvals from experts in construction equipment financing. Just visit your nearest John Deere dealer, select the equipment you need, and get a quote.
- Improve your bonding capacity Leased equipment does not appear on your balance sheet as either an
 asset or liability (consult your tax advisor). This can be very important to your future acquisition plans because it
 strengthens your financial ratios.
- Lower your taxes on equipment use In most states, instead of paying sales tax on the full purchase price, you pay only a use tax on the monthly lease payment. If you eventually exercise the purchase options, you've deferred the sales tax until the end of the term.
- Maximize uptime Newer leased equipment means less downtime and fewer repairs.

YOU HAVE CHOICES AT THE END OF THE LEASE:

PURCHASE the equipment

RENEW and continue the lease %

REFINANCE the equipment using one of many options (1)

RENT the equipment O

IS LEASING FOR YOU?

to consider as you decide if leasing is right for you. is definitely one of those. Here are some questions John Deere Financial offers many effective ways to finance what you need to get the job done. Leasing

- How long will you need the equipment?
- the term? Do you want to own the machine at the end of
- Are you interested in keeping up with the latest
- Do you want to buy out early?
- trying to satisfy? Are there tax, cash flow, and financial issues you're
- overall cost? Are you more concerned about the lease rate or the
- Are you just looking for the lowest possible payment?

LEASING ADVANTAGES

- Depending on the term, less money may be required
- Generally lower payments than installment loans of
- Pay for the use of the equipment, return it at lease end, or exercise your purchase option.
- Schedule equipment replacement at less cost than a cash purchase. Reduce downtime. Keep newer equipment with the
- latest technology in your fleet.
- Increase your cash flow with lower payments and generally lower up-front costs.
- Eliminate the task of disposing of used equipment. Possibly less expensive and more efficient option to

LOAN ADVANTAGES

- You own the equipment when you're done paying for it.
- You can depreciate the equipment.
- The equipment appears as an asset on your
- No hour limits for the time you use the machine.
- Build equity with installment payments.
