As we begin a new year, Rebuilding Together is accepting applications for a variety of home improvements projects for low-income residents in specific communities throughout the state.

Now more than ever, the ability to stay home in a safe and comfortable environment is a major priority, especially for those that are most at-risk.

From accessibility ramps, home repairs and added safety features, our donated work allows residents to stay in their home longer, improving their overall quality of life.

---

### Home Repair

The Home Repair program provides safe and healthy housing repairs, including interior improvements (i.e. installing flooring, patching and painting), siding, windows, and landscaping. It also provides contractor-delivered repair or replacement of essential systems, such as HVAC, electrical, plumbing and roofs that are critical to healthy, livable homes.

Home Repair services are available throughout the counties of Cottonwood, Jackson, Nobles and Pipestone.

### Safe at Home

The Safe at Home program provides home safety and fall prevention modifications and ramps for older adults or those living with a disability so they can continue to live safely and independently in their own homes.

Modifications for the interior of the home can include grab bars for bathrooms, handrails for basement and upstairs steps, smoke and carbon monoxide detectors and other updates that allow seniors to safely age in place.

Dedicated volunteer teams provide ongoing support to design and build quality, tailored ramps to make homes accessible for all.

Safe at Home services are available throughout the counties of Cottonwood, Jackson and Nobles.
