2025 Utility Rates

The rate increases are necessary to operate and maintain the city's water, sanitary sewer, and electric systems to maintain reserves and to repay debt incurred to improve the systems. Water and sewer rates will increase 2%, electric rates will increase 8% in 2025. The Mountain Lake Utilities Commission has considered and recommended the rate increases for 2025 and the City Council approved the rate increases at the December 3rd City Council meeting. The new rates will not appear until the bill that is sent in February that is due on March 5th for the usage in January. For more information, please contact the city administrator.
